It's not that it's a bad game, it's so incompetent it doesn't even qualify as a game. It's a tower defense but there's only one tower type, one enemy type, the enemies don't get faster or stronger, AND YOU DON'T EVEN HAVE ANYTHING TO DEFEND. Let all the enemies though, doesn't matter! Or try this for fun, set up two towers across from each other at the beginning of the map and the enemies will never make it past that.

A new low in Steam garbageware. I paid 12 cents for it and I'm still angry.
